

Which type of internet connectivity is best for your business?

When to choose dedicated vs. shared internet service

Things to consider when buying internet...

- How many employees will use it?
- Do employees need access to critical business applications?
- Is network congestion during “peak times” a concern?

Dedicated internet provides dependable, unshared internet access. Choose AT&T Dedicated Internet if you need:

- Fastest speeds – from 500Gbps to 1Tbps¹
- Built-in proactive monitoring
- 100% uptime guaranteed – or we’ll credit your account
- Cyber threat analysis, at no charge

Best fit for...

- Enterprise connectivity (HQ, data centers, hub locations, etc.)
- Locations using mission critical applications
- Growing locations (More employees and heavier bandwidth usage)

Shared Internet gives you ultra-fast, reliable, and cost-effective internet. AT&T Business Fiber® offers:

- Up to 5-Gig speeds^{2,3}
- No data caps or equipment fees
- Over 99% proven reliability⁴
- No annual contract

Best fit for...

- Smaller locations with less employees
- Budget-friendly access to the web
- Single-site franchises that would each receive its own bill

¹ Speed claims are actual guaranteed speeds of 500Mbps to 1Tbps. Fastest based on comparable dedicated internet speeds.

² Actual speed claims represent maximum wired network service capability speeds and recommended setup. Actual customer speeds are not guaranteed. Single device wired speed maximum 4.7Gbps. For more info go to www.att.com/speed101.

³ Limited availability in select areas for 5-Gig speeds.

⁴ Based on network availability.

Multiple locations? We have an Enterprise-focused solution for you. This includes a single contract for all sites, a consolidated invoice, and one number to call for support. Ask your AT&T Account Representative for details.
