

AT&T Mobile Select – Pooled plans can help you tame overages, wrangle wasteful under usage, and stay connected and productive

At AT&T Business, we're always looking for ways to help you with your business needs. That's why we offer **AT&T Mobile Select – Pooled plans** to help you control your data costs and user experience. AT&T Mobile Select – Pooled plans can help simplify mobility for business customers by providing flexible pooled data for eligible devices.

The power of the data pool

Pooled data¹ can help you deal with unused data and overages across teams with different data demands under a single billing account. For example, an insurance company may have adjusters in the field who consume vast amounts of data each month. The same company may have a home office where the staff uses much less data each month.

By having all of these users in the same data pool, the surplus data from the light users can help offset the overage charges of the data-heavy users.¹ What's more, the data pool is flexible so you can customize it to fit your organization. You can have a mix of pooled plans for different devices with different data allotments, all within the same data pool.

- Users with Mobile Select - Pooled plans are added to the data pool
- Users deplete their own data allowances first and then incur overage charges at the specified rate
- If the data pool's total under usage exceeds the total over usage at month's end, the excess under usage is reallocated to help offset the overage charges
- As users come and go, the data pool goes up and down depending on individual contribution!

¹ Data pool consists of CRU lines on Mobile Select – Pooled plans within a single billing account.

Step into the 5G world

5G technology will alter the DNA of the digital experience. It's starting to already. And AT&T Mobile Select – Pooled plans include access to AT&T 5G/5G+ services, where each is available¹, for your capable devices.

Mobile Select – Pooled plans also feature:

- Unlimited number of domestic calls and texts²
- Unlimited texting from the U.S. to over 200 countries²
- Unlimited talk from the U.S. to Mexico and Canada²
- Plan use in Mexico with no roaming charges³
- High Definition video streaming (with Video Management feature turned off)⁴
- AT&T ActiveArmorSM mobile security (including spam and fraud call blocking)⁵

¹ Requires a compatible 5G/5G+ device and plan. May not be available in your area. 5G+ is available only in limited parts of select cities. See att.com/5Gforyou for details. Other restrictions apply.

² Requires a compatible device and plan. Pay-per-use rates apply to calls made to other countries.

³ Requires a compatible device and plan. Apple wearable series 5 and higher can also use plan data, talk and text in Canada. Roaming usage may be at 2G speeds. Other restrictions apply.

⁴ Video typically streams at standard definition. Content bundled with video may be slow to load. Go to att.com/premier to change your settings to view in higher definition. Details at att.com/VideoFeature.

⁵ Compatible device for AT&T ActiveArmor app access. Download of app required. May not detect all threats. May inadvertently block wanted calls; settings can be adjusted in the app. Mobile Security is not available while roaming internationally.

Build your data pool

Does your sales team need 10GB Mobile Select - Pooled plans for smartphones while your IT team needs 3GB Mobile Select - Pooled plans for data-only devices? You can mix and match devices, plans and data allotments within the same data pool.

AT&T MOBILE SELECT – POOLED PLANS: Available only to business and government customers with a qualified AT&T wireless service agreement that includes, without limitation, the Additional Service- and Equipment-Related Terms found at att.com/abs-addtl-terms (**Business Agreement**). For Corporate Responsibility User (**CRU**) lines of service only. Each plan is limited to one line and requires an eligible device (sold separately). **All AT&T service is subject to the terms and conditions in your Business Agreement.** All AT&T service is subject to AT&T network management practices. See att.com/broadbandinfo for details. **PRICING:** Advertised monthly price includes a monthly plan charge for talk, text and/or data services, depending on your selected plan. **Discount for Plan Savings:** Advertised price of plans for a smartphone that is purchased at full price, on a qualified installment agreement, on a month-to-month term, or bring your own includes a \$25 monthly discount applied to the standard monthly service charge (\$60 to \$105 per month, depending on your smartphone plan). If you are eligible, the discount will be applied via a monthly bill credit. You will lose any available discount for your CRU line if you upgrade to a new smartphone with a service commitment. **OTHER RESTRICTIONS AND FEES:** **Activation/upgrade fee** per line (up to \$50) and deposit may apply. Credit approval may be required. If you purchased a device that requires a service commitment, an **Early Termination/Cancellation Fee** applies if you cancel service after the first 30 days and before your commitment ends. See att.com/returns for details on what fee may apply for your device and how the fee is prorated over time. AT&T reserves the right to suspend or terminate service to your account, place any noncomplying device on an appropriate plan, and/or add any other required element of a plan. **ADDITIONAL MONTHLY FEES AND TAXES:** Apply per CRU line and include Regulatory Cost Recovery Charge (up to \$1.50), Administrative Fee (\$1.99), Property Tax Allotment surcharge (\$0.20-\$0.45) and other fees which are not government-required surcharges, as well as taxes. Additional one-time Fees may apply. See att.com/mobilityfees for details. **ELIGIBLE DEVICES:** Vary by plan but include smartphones, feature phones, tablets, laptops, mobile hotspot devices, wearables, and connected devices. **Wearables:** NumberSync pairing with compatible smartphone (sold separately) may be required to access cellular network for talk, text and data. **DATA:** For use in the United States (**Domestic Coverage Area or DCA**). Plans for phones and \$20/mo. and higher plans for data-only devices also include data usage in Mexico for compatible devices; plans for Series 5 and higher Apple wearables also include data usage in Mexico and Canada (OS upgrade may be required). Additional or promotional data may not be available for use outside the DCA. Tethering/mobile hotspot use is permitted with compatible devices. **DATA OVERAGE:** If you exceed the total amount of data in your plan (**Data Allowance**) during your billing period, additional data will be provided automatically at a pay-per-use rate of \$0.000009536 per kilobyte. **POOLED DATA:** The plans include pooled data at a billing account (**BAN**) level. Within each BAN, all CRU lines activated on the plans will be combined with CRU lines activated on AT&T Mobile Select Priority - Pooled plans that include BAN-level pooled data and the same data overage rate, if any, and CRU lines activated on other qualified AT&T Mobile Select plans that include BAN-level pooled data and the same data overage rate, if any, to create a Mobile Select data pool (each, a **Data Pool**). No other plans can be part of the Data Pool. With regard to each Data Pool, every billing cycle, each CRU line first uses its plan's Data Allowance, if any. If a CRU line does not use all of its Data Allowance, an underage is created in the amount of the unused Data Allowance (**Under Usage**). If a CRU line uses more than its Data Allowance (e.g., any CRU line on a 0GB plan), the CRU line incurs Data Overage charges in the amount of the excess data usage (**Over Usage**). At the end of the billing cycle, AT&T calculates the total Under Usage and Over Usage amounts for CRU lines in the Data Pool and then compares the two totals. If the total Under Usage amount exceeds the total Over Usage amount, the total Under Usage is allocated among CRU lines in the Data Pool with Over Usage (if any), resulting in per line credits on your invoice equal to each such CRU line's Data Overage charges. Any remaining Under Usage will be forfeited. If the total Over Usage amount exceeds the total Under Usage amount (and the total Under Usage amount is greater than zero), the total Under Usage is divided by the total Over Usage to create an allocation factor that is applied equally to each CRU line's Data Overage charges to determine each such CRU line's share of the total Under Usage amount, resulting in per line credits on your invoice to partially offset each such CRU line's Data Overage charges. For example: if a Data Pool has a total of 100KB of Under Usage and 1,000KB of Over Usage (which means an allocation factor of 10%), then your invoice will show, with respect to each CRU line in the Data Pool with Over Usage, both (a) the CRU line's Data Overage charges at the specified Data Overage rate, and (b) a bill credit equal to 10% of the CRU line's Data Overage charges. Migrating CRU lines to different plans during a bill cycle may result in one-time prorations or other impacts to the credit calculation. **Limits:** You are limited to one Data Pool per BAN for the plans. Your BAN may also have one or more data pool(s) for CRU lines on different pooled data plans(s) (for example, AT&T Business Pooled Nation for Data), but CRU lines in a Data Pool cannot take advantage of any other data pool's Under Usage and vice versa. Each CRU line can only be part of one data pool at a time. AT&T reserves the right to limit the number of CRU lines in a Data Pool due to business needs and system limitations. **5G SERVICE:** Requires compatible 5G device and plan. 5G service is not available everywhere. See att.com/5Gforyou for details. **5G+ SERVICE:** Requires a compatible 5G+ device and plan. 5G+ is only available in limited parts of select cities. See att.com/5Gforyou for cities. Compatible 5G+ device will display 5G+ coverage indicator when used in an area where 5G+ coverage is available. Other restrictions apply. **VIDEO STREAMING:** Plans include the Video Management feature. We aim to render streaming video in standard definition (max of 2 Mbps for customers on both 5G-enabled devices and rate plans or 1.5 Mbps for devices or plans not compatible with 5G), though some video cannot be identified. Sometimes, other content that content providers bundle with streaming video may be impacted and slowed, including downloads. In certain situations, we may deliver video content faster or at higher definition. To experience higher definition video when available, or if you have an issue, turn the feature off or back on any time at att.com/premier. Details at att.com/VideoFeature. **UNLIMITED TALK:** For phones and wearables only. Includes calls within the DCA. Plans for phones also include unlimited calls within Mexico; plans for Series 5 and higher Apple wearables also include calls within Mexico and Canada. Service may be terminated for excessive roaming (see Business Agreement). **Unlimited Talk to Canada and Mexico:** For phones and compatible wearables only. Include unlimited International Long Distance (ILD) calling from the DCA to Mexico and Canada. Plans for phones also include unlimited ILD calling from Mexico to Canada and the DCA; plans for Series 5 and higher Apple wearables also include unlimited ILD calling from Mexico and Canada to the DCA, Mexico and Canada. You may be charged for calls to special or premium service numbers and calls to other countries. For rates, see att.com/intlcalling. **UNLIMITED TEXT:** For phones and compatible wearables only. Includes unlimited number of messages up to 1MB in size within and from the DCA. Plans for phones also include messages within and from Mexico; plans for Series 5 and higher Apple wearables also include messages within and from Mexico and Canada. For texting to other countries, see att.com/text2world. Messages sent through applications may incur data or other charges. **Advanced Messaging –** For customers with Advanced Messaging capable devices only. Not available for use outside the Domestic Coverage Area. Other restrictions apply and can be found at att.com/advancedmessaging. **AT&T ACTIVEARMORSM MOBILE SECURITY:** Requires compatible device, download of ActiveArmor App and acceptance of terms of service (see att.com/legal/terms/mobileSecurityEULA.html). **Spam and Fraud Call Blocking:** May not detect all threats. May inadvertently block wanted calls; settings can be adjusted in the app. Mobile Security is not available while roaming internationally. Details at att.com/security/security-apps. **COVERAGE:** Coverage may include areas that are served by unaffiliated carriers and not on AT&T's owned and operated network (off-net). Coverage is subject to change without notice. **OFF-NET USAGE:** International and domestic off-net (roaming) data usage may be at 2G speeds. **Excessive Off-Net Usage:** You get an off-net (roaming) usage allowance for each service (see Business Agreement). If you exceed the allowance, your service(s) may be restricted or terminated. **MISCELLANEOUS:** Plans are not available at att.com/smallbusiness, att.com/myatt and select other AT&T sales channels. **International Roaming:** Monthly plan prices do not apply to usage while roaming outside the DCA (or, for compatible phones and data-only devices, the DCA or Mexico, or, for Series 5 or higher Apple wearables, the DCA, Mexico or Canada). International usage will be charged at pay-per-use roaming rates, found at att.com/intlprorates, unless an international package is added. For available international options, visit att.com/internationalforbiz. Not all devices may be eligible for international roaming service. **Business Agreement Discounts:** Plans that have a monthly service charge of less than \$35 are not eligible for any CRU service discount described in the Business Agreement.

All offers, promotions, pricing, terms, restrictions and conditions are subject to change and may be modified, discontinued or terminated at any time without notice.
